

CASE STUDY

GOONYELLA RIVERSIDE VERTICAL LIFT

The Client:

BHP Mitsubishi Alliance

Industry:

Mining / Warehousing

Year / Duration:

2019

Project Team:

Matt Callanan
Director

Darren Payne
Director

Rory Duckworth
Construction
Supervisor

Project Description & Location

Goonyella Riverside Mine is a large open cut mine in the Bowen Basin, located 30km North of Moranbah in Queensland.

Scope of Work

Electrical fire suppression and lid for electrical drawer containment and positive pressure dust suppression. Lift installed on coal minesite in Queensland. The original filters selected were not suitable for the harsh environment, though this was swiftly changed by the CP group to match the conditions.

Client Reference

"CP group is very responsive and solution-focused. Highly recommend dealing with this company."
