

Product Information Sheet

HVAC

(Heating, Ventilation and Air Conditioning Systems)

CP Group Aus covers all aspects of commercial HVAC installation.

Our team of Engineers install top performing Heating and Ventilation Systems in various industries. Our expertise in Energy & Resources, Domestic and Commercial industries enable us to carry out each HVAC project in a timely manner.

Each HVAC project we undertake involves complete communication between our expert team and clients, we ensure you are taken through a step-by-step process with attention given to your needs. An efficient installation process is as important to us as it is you and we ensure your property is left clean and tidy upon completion.

HEALTH & SAFETY:

Health and Safety is number one for CP Group Aus. We value our employees and respect all workers who are on projects with us. CP Group Aus are Safety Orientated and are committed to maintaining our zero hazard/injury reputation. CP Group Aus are constantly searching for ways to improve our procedures. We strongly believe training and education is an ongoing process for improvement.

INTEGRITY:

We deliver on what we say. On Time, On Budget and Incident Free Projects! We respect the rights of our entire team and promote diversity. Our aim is to protect the culture and heritage of the environment and communities we work alongside, always.

EXCELLENCE:

We strive for excellence in everything we do and taking pride in our staff is always a priority. We work to extremely high standards in order to exceed our client's expectations. We invest in our future through continuous improvement and innovation to consistently deliver superior quality.

CP Group Aus are committed to providing effective and efficient HVAC service solutions for the Energy & Resource industry across Western Australia. Each large-scale project is intensely assessed with complete communication on all aspects of each project with our client. We believe communication is key in every project we undertake.

Our professional team of engineers conform daily with our project manager to ensure deadlines are met, while maintaining the highest standard of work. Our team members have impressive portfolios in relation to Design, Installation, Servicing and Problem Preventative Maintenance.

Our clients receive regular updates with time frames to ensure your business can run as smoothly as possible throughout the installation process.

Upon completion, each business remains clean and as our team found it with one difference, a bespoke and professionally installed top quality HVAC system!

Our 100% success rate of projects finishing on time and on budget has led us to becoming a leading HVAC Installation service across Australia.
