

## CASE STUDY

### MINING AREA C VERTICAL LIFT

#### The Client:

BHP MAC

#### Industry:

Mining / Warehousing

#### Year / Duration:

2020

#### Project Team:

Matt Callanan  
Director

Darren Payne  
Director

Dan Scott  
Operations  
Manager

#### Project Description & Location

The Area C mine is an iron ore mine located in the Pilbara region of Western Australia, 95km WNW of Newman.

#### Scope of Work

Electrical fire suppression and lid for electrical drawer containment and positive pressure dust suppression. Lift installed on an iron ore minesite in Western Australia. The Electrical drawer lids were asked to be modified to suit the clients needs. This was handled brilliantly by CP group and the modifications were made quickly and installed.

#### Client Reference

*"The CP group is very responsive and solution-focused. Highly recommend dealing with this company."*
