

CASE STUDY

PILGANGOORA MINE

The Client:
Pilbara Minerals

Industry:
Mining

Year / Duration:
2018

Project Team:

Matt Callanan
Director

Darren Payne
Director

Project Description & Location

The Pilgangoora Mine is a lithium mine located approximately 1240km north-northeast of Perth and 120km south of Port Hedland in Western Australia.

Scope of Services

Supply and install stopfire fire suppression to the electrical control rooms. Client required an autonomous fire suppression system that only required inspection by their company, rather than outside inspectors and contractors due to their location.
